THE OAKLEIGH PARK PRE-EXERCISE SCREENING QUESTIONNAIRE

For most people physical activity should not present any hazard. This screening questionnaire has been developed to identify the small number of adults for whom problems may exist. We recommend that you seek medical advice if the answer is 'yes' to any of the following questions (please delete):

Has your doctor ever said that you have a heart condition and recommended only medically supervised physical activity? YES/NO

Do you have chest pain brought on by physical activity? YES/NO

Do you tend to lose consciousness or fall over as a result of dizziness? YES/NO

Has a doctor ever said that your blood pressure was too high and/or recommended medication for a heart condition? YES/NO

Do you have a bone or joint problem that could be aggravated by the proposed physical activity? YES/NO

Are you aware, through your own experience or a doctor's advice, of any other physical reason why it would be inadvisable for you to exercise without medical supervision? YES/NO
